

INDOOR PLAYGROUNDS

Surprising visitors again and again!

Do you want to start an indoor playground? Then you want a full concept that offers fun for both young and old. With the indoor play concepts of Playlife, you will surprise your visitors again and again. **Get inspired!**

One of the world's leading providers of full leisure concepts

For more than 25 years, Playlife has been one of the leading providers of trampoline parks, indoor playgrounds and family entertainment concepts. From design to the final product: Playlife creates unique total concepts for every location and every budget. We have already realised over 900 projects and are the market leader in Central Europe!

let's play!

Starting with unique designs

The design of your Family Entertainment Centre starts with a good conversation. Together with your ideas, our knowledge, our experience and our creative designers, we create an indoor playground that exceeds all your expectations. After the conversation, our designers turn the idea into a 2D design and then into a 3D presentation. This way, your idea becomes custom-made and we make every playground unique. A stand-out concept guarantees success!

Safety & regulations

The safety of your visitors is our top priority. That's why all our playground equipment and play structures are constructed according to the latest safety standards. After delivery, we will ensure that the entire playground is inspected and certified by an independent expert, if desired.

Production & installation

Once you are satisfied with the design, we work out the drawings down to the smallest detail. With a total of seven production facilities in Europe, no project is too big for us. What's more, our field technicians have plenty of experience installing projects both at home and abroad. Wherever your location, Playlife will take care of a professional installation.

The key to success!

Playlife thinks along with you in all areas. That's how we develop your formula for success together! We advise you on the entire set-up of your location and think along with you on all sorts of other things that will make your business plan a success.

Fully themed

With an indoor playground, you want to create an experience. A place where both children and parents can enjoy themselves. Playlife therefore offers many possibilities in 2D and 3D theming! From full colour print on the walls to 3D elements, such as lifelike dinosaurs, to a complete jungle with animals and vines. Nothing is too crazy!

Get inspired!

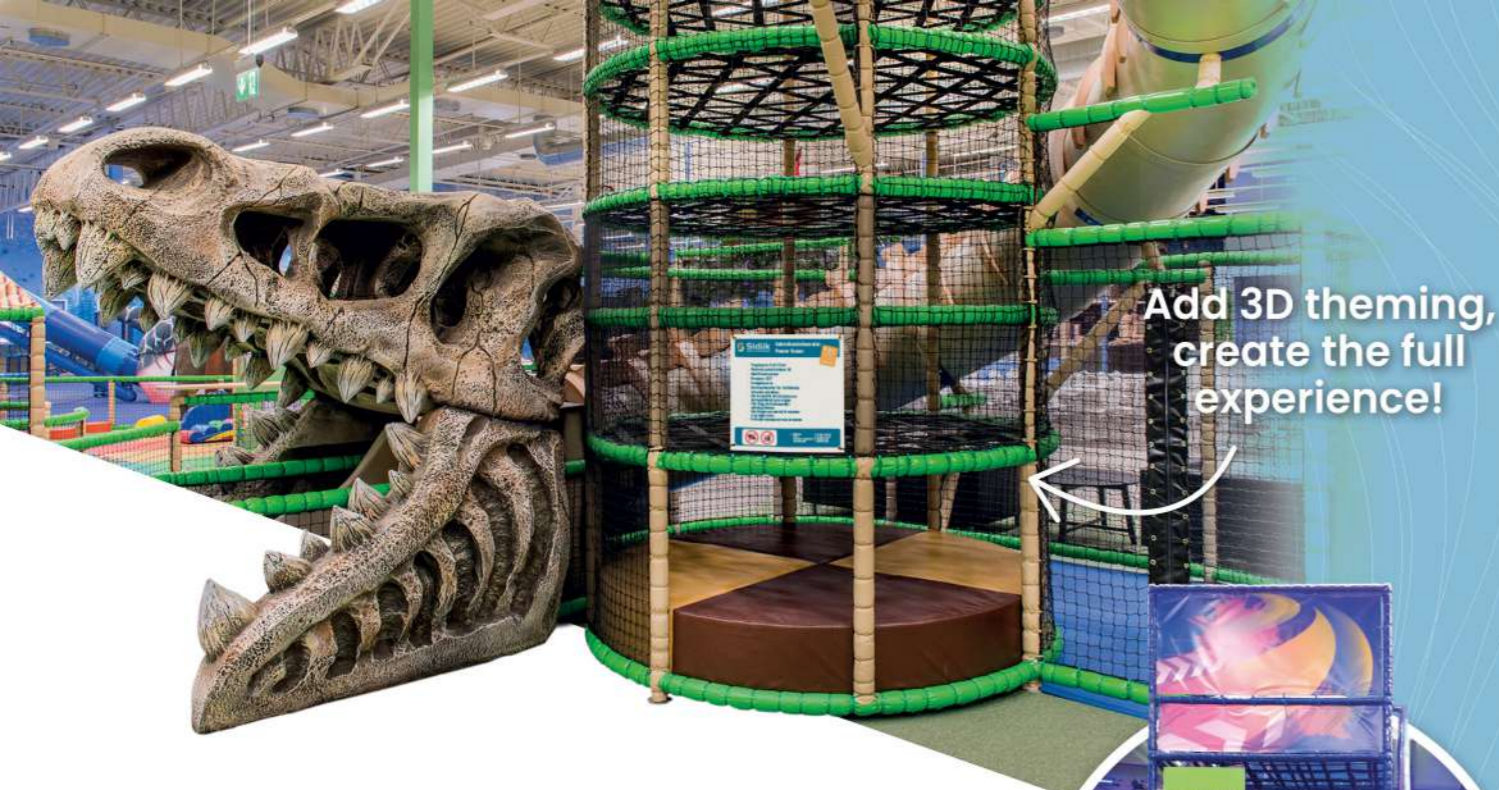

Complete your indoor playground and discover Playlife's indoor play concepts. From challenging play structures and climbing equipment to surprising kidscorners for the little ones.

Play structures

The starting point for every indoor playground. For years, play structures have been a great success for indoor playgrounds and offer lots of fun for children aged 4-12. Climbing, clambering and crawling. This indoor climbing spectacle is guaranteed to provide hours of fun!

Add 3D theming,
create the full
experience!

Power Tower

Using elastic bands that look like a spider web, the children climb and clamber from top to bottom! This climbing tower can be used as a stand-alone attraction or can be integrated within a play structure.

Kids Ninja Course

Das Every child feels like a true ninja within the Kids Ninja Course. The aim of the game is to complete the course as quickly as possible. There is jumping, crawling and balancing. All elements of a big Ninja Obstacle Course are integrated, but adjusted to the level of the children.

Climbing Volcano

Are you looking for an attractive, safe and very strong playground equipment? Then a Climbing Volcano is the attraction for your location! This eye catcher is available in various sizes, shapes and colours. Children climb up along the climbing grips and slide down again at a flying speed. A real sensation!!

Ball Pit Zone

A ball pit is the perfect addition to any indoor playground and offers a lot of fun for the little ones. Make the ball pit even more fun and add elements like a ball shower, the ball barrel game or ball shooters!

Fun Blocks Area

Fun-Blocks sind riesige Bausteine. Kinder Fun Blocks are giant-sized plastic building blocks. Children can build with them, stack them and use all their imagination. With rounded corners and lightweight material, the blocks are very safe and suitable for children of all ages. The standard set consists of 106 blocks in different sizes and colours.

Slides

No matter how old you are, slides are fun for everyone! Playlife has a wide range of slides in all shapes and sizes. From small slides to spiral slides and large family slides. Playlife has a solution for every situation with lots of sliding fun!

Donut Glider

Slide downhill at high speed in an inflatable 'donut'. A crazy sensation for both young and old! This attraction can be placed both indoors and outdoors and can be made as exciting as you wish.

New:
Gel floor plates

Toddler Area

From soft play animals, block puzzles and play blocks to complete soft play islands and custom made kids play corners. Made of foam and finished with PVC, soft play products are flexible, soft and easy to clean. In this area children can play safely and have fun for hours!

Kidscorners

A Kidscorner in your shop, restaurant or garden centre always gives a boost to your business. But how do you create a challenging play corner for these days' children? From interactive games to activity boards: Playlife offers kidscorners and game modules in all kinds of designs and set-ups.

Inflatables

Discodome or assault course, football cage or pirate ship: with inflatables you can vary endlessly. At Playlife, we offer an wide range of inflatables. Whether you go for simple, colourful or unique shapes. We offer you an inflatable that is both beautiful, safe and durable.

Trampoline cabin

As a supplier of trampoline parks, this attraction is definitely a must to our assortment! The trampoline cabin can be easily integrated within a play structure and is the best way for kids to get used to trampoline jumping in a safe and fun way.

Party Rooms

Complete your indoor playground with Party Rooms! These themed rooms for children's parties guarantee extra turnover and will make sure that visitors return. Choose cool themes such as Pirates, colourful themes such as Fairytales or create a real Jungle. Every child will want to have a party here!

Multi-Sport Arena

One area with multiple functions! The Multi-Sport Area offers entertainment for a variety of settings. By adding small extras, you can switch from panna football or volleyball to basketball or dodgeball! Which game do you want to play?

Kart Track

On a bike, by go-kart or in bumper cars. With a kart track around (and through) your indoor playground, you are bound to have success! Children will be amazed while driving around his "highway". The flat track is surrounded by a bumper which ensures children to stay safely inside the track.

Old

Re-fit

Is your indoor playground ready to be upgraded? Or do you want to make better use of all the 'empty' spaces? In cooperation with BallenEnzo, Playlife offers all kinds of game elements, themes and special effects to give your indoor playground a boost. Transform a standard ball pit into a complete experience area where children can play cool ball games. Also for small spaces, for example under a slide, surprising elements can be added for even more fun!

An unforgettable experience!

In the pictures Sanjesfertier Dokkum in shown. With a re-fit we made this indoor playground even more appealing by adding a "Gold Mining" theme. With luminous diamonds, treasure chests and ball games transformed themed as wooden barrels, an enchanting environment is created.

Interactive Elements

With the interactive elements of Playlife you give an extra dimension to your indoor playground. Make a climbing wall interactive with a 'Trailblazer' or 'ValoClimb', add targets to the Multi-Sport Arena or choose for a Valo Motion; interactive games projected on the wall or ground. Discover all the various games and possibilities!

Climbing Walls

With this climbing wall, designed for indoor playgrounds, children can climb upwards and sideways. Each colour of climbing bars forms a climbing course. Because the climbing wall is not too high and is equipped with fall mats, children can climb safely. Do you have an empty wall in your playground? Add a climbing wall!
